CAREER OBJECTIVE

Passionate and detail-focused **Full Stack Developer (MERN Stack)** with hands-on experience in building scalable, responsive, and user-friendly web applications. Proficient in both **front-end** and **back-end development**, combining creativity with logical problem-solving. Currently pursuing a **B.Tech in Information Technology**, with a passion for continuous learning, collaboration, and contributing to high-impact software projects.

PROGRAMMING & TECHNICAL SKILLS

- **Programming Languages** : Html, CSS, JavaScript, SQL
- **Frameworks & Libraries** : React, Bootstrap, Tailwind CSS, Express.js, EJS, NPM,
- **Databases** : MySQL, MongoDB
- **Tools & Platforms** : Git, GitHub, Vs Code, Node.js, Version Control, Rest API Development

EDUCATION

- **B.TECH – IT | Sir Chhotu Ram Institute of Engg. & Tech. , Meerut** CGPA: 8 /10 | (2022- Present)
- **XII(PCM) – CBSE – D.A.V. Public School Budhana Muzaffarnagar** 80% | 2021
- **X – CBSE – D.A.V. Public School Budhana Muzaffarnagar** 76% | 2019

PROJECTS

- **Academic Project: StayRnB ([website link](#))**
Created **StayRnB (Stay Rest and Breakfast)**, a full-stack accommodation booking web application inspired by Airbnb. Implemented user authentication, **CRUD operations** for property listings, booking management, and a **review & rating system**. Integrated **interactive location maps** to display property locations and improve booking accuracy. Used modern web technologies to build a **scalable, secure, and user-friendly platform**.
- **StockEra | Online Trading Platform ([website link](#))**
Developed StockEra, a MERN-stack based online trading platform. Implemented secure user authentication, real-time stock data visualization, portfolio, holdings, orders, positions, and funds management. Designed scalable and secure RESTful APIs along with interactive dashboards to deliver a smooth and reliable trading experience. Optimized application performance and ensured efficient real-time updates.
- **MeetLance | Real-Time Collaboration & Interview Platform (ongoing)**
Developing MeetLance, a MERN-stack based real-time collaboration and interview platform. Implementing secure user authentication, live video meetings, real-time chat, and interactive whiteboard features. Enabling one-to-one technical interviews with live coding support for Java, Python, and JavaScript, along with coding practice functionality. Focused on real-time communication, scalability, and smooth user experience.

INTERNSHIP EXPERIENCE

Web Development Intern – SYSTEMTRON

Feb 2025 – March 2025

- Worked on front-end projects including To-Do List and Connect 4 Game using HTML, CSS, and JavaScript, improving usability, code structure, and overall user experience.

TRAINING / CERTIFICATE

- **Complete DSA with Java & Aptitude** by Apna College
- **Web Development Bootcamp** by Apna College
